Diversity, Equity, and Inclusion

Working at the crossroads of many cultures, creeds, and national traditions, the UW Department of Slavic Languages & Literatures acknowledges, advances and celebrates differences of all sorts. In a time of increasing inequality, a rise in hate crimes, as well as other signs of growing division in the country, our department recognizes the heightened stakes in its commitment to diversity and equity. We proudly take on that challenge through unwavering support for religious minorities, the LGBTQ+ community, the disabled, immigrants (documented and non-), and other historically marginalized peoples; as well as through an ethic of inclusion in our recruitment, curriculum, decision-making and governance.

We are united against racism, sexism, ableism, homophobia, transphobia, Antisemitism, Islamophobia, in short against intolerance and discrimination of all sorts. From scholarship on cultural representations of disability in film, to gender and identity studies in language, in both our personal and academic lives we stand with Czech playwright and president Václav Havel, who wrote – at a very dark moment for his own country: “In everyone there is some longing for humanity's rightful dignity, for moral integrity, for free expression of being and a sense of transcendence over the world of existence.”

By our daily example, in actions small and large, we seek to fulfill Havel's vision by welcoming all.
